

REMARKS

In the Ex parte Quayle action, the Examiner indicated that all of pending claims 5-23 contain allowable subject matter, but objected to the title of the invention as not descriptive, objected to the specification for informalities, objected to claim 17 as of improper dependent form, objected to claim 23 as a substantial duplicate of claim 22, and objected to claims 7-23 for informalities.

As suggested by the Examiner, Applicants have amended the title of the invention and the specification. Applicants have amended claims 5, 7, 11, 12, 16, and 18-22 to correct typographical errors and to improve formality. Applicants have also cancelled claims 17 and 23, without prejudice or disclaimer of the subject matter thereof.

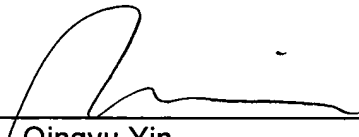

The amendments to the specification and the claims overcome the objections thereto. Therefore, the application is now in condition for allowance. Applicants respectfully request the timely allowance of the pending claims.
